

What in God's name do you think you're doing????

Just last summer you tried to remove (more) restrictions on media ownership. That failing, after the public rebelled, you tried it again!!

Now you allow Sinclair, whom you will not even discipline for breaking those rules i.e., the sham transactions in PA., to egregiously pre-empt regular programming to show a "smear" commentary on John Kerry, claiming it to be a documentary????

You folks should be impeached--no, better yet, flayed and then lynched!!! You people are not even a credit to Josef Goebbels, he was too honest for your miserable bones.

You bastards need some prison time to think this over!! I'll see if I can get you some.
